2014 319SWorkNWQI revised 20160815.doc

Jill/Jayne,

I am assuming Ivan is asking me to approve the updated work plan. Are either of you familiar with this NWQI project and is there a blueprint to follow in the "review/approval" of these? Looking for sage advice the two knowledgeable people.

Alan

BTW, I will be leaving at 10:00 today. Is there any chance we can talk or connect before 10:00?

Subject: 2014 amended work plan for NWQI project W14769

Alan,

Good afternoon

I understand you are attending meetings away from your office, in the Klamath Basin this week. Hope they go well.

I have a time sensitive request for you that we would like to request approval.

For your perusal:

We have received approval for NWQI work during the 2014 grant year, but at that time we did not provide details for the project implementation. At this time we have progressed, to point that the work, in order to for our deadlines to be met, needs to begin ASAP.

The work-plan has been updated for one of the basins included in the approved workplan, related to the NWQI BMP effectiveness monitoring in the Fifteenmile watershed.

I am attaching a detailed work plan for your reference.

At your convenience, ASAP please let us know of your recommendation

Thank you.

If we could provide additional information, please contact Julia Crown, Bonnie Lamb or myself.

Ivan
